

Exhibit B – Amounts Generally Billed Calculation

Amounts Generally Billed is based on the billing and coding process MHHS uses for Medicare fee-for-service for emergency or medically necessary services. The hospital AGB discount percentages are calculated using the “look-back” method, which equals the total of Medicare fee-for-service payments allowed divided by the total gross charges for those services for the prior 12-month period.

AGB % for IP (Inpatient) = Medicare IP Allowed Payment / Medicare IP Total Charges
AGB % for OP (Outpatient) = Medicare OP Allowed Payment / Medicare OP Total Charges

On an annual basis, the AGB is calculated separately for each hospital, but all MHHS hospitals will adopt the lowest AGB percentage from among all hospitals.
